LaVillle Elementary Newsletter
February 2023

Principal: Hope Amor

We hope everyone had a restful long weekend and happy Valentine's Day! We are excited for upcoming school-wide presentations: Junior-Senior High students are performing Little Mermaid at our lunches next Tuesday and a local author is coming to speak on March 10th! Community means the world to our school community.

Assistant Principal: Nick Kaczynski

Lancers are looking forward to the Quarter 3 School Wide PBIS party. Parents please remember to call or email the reason for your student's absence to Dawn Amor, thank you.

Food Service Director: Cindy Hanson

Please be sure to keep an eye on your students' lunch accounts. Don't let them go negative! Go to mymealtime.com to create an online account. You can track your child's purchases and make deposits online. If you need financial aid, it's not too late! Contact Debbie Keen in the front office.

Elementary Treasurer: Debbie Keen:

Please make sure to pay all past due balances. All school fees were due on December 1st. If you are unable to pay the full amount at this time please contact me to discuss a payment arrangement.

Kindergarten

Quarter 3 assessments are just around the corner! Keep reviewing the sight words, teen numbers, and counting to 100 by tens and ones. In March, we are looking forward to planning and building leprechaun traps!

1st Grade

We love the progress we are seeing on the Quarter 3 words. Your child should have the list of all 35 words in the back of their folder. Please continue to review these and we will assess the week of March 13th.

2nd Grade

WOW! THANK YOU to all grade levels for supporting our Penny War!!! We raised over \$1,500. Our students packaged and delivered over 175 care packages to local nursing homes and assisted living facilities.

"The Union-North United School Corporation has the mission of empowering and inspiring students to excel in service, leadership, academics and personal growth."

3rd Grade

IREAD testing begins on March 6th. We have been working hard all year to prepare! Reading at home and asking questions about what is read is a great way to help! Please, help your kiddo remember to charge their chromebook each evening.

4th Grade

With ILEARN right around the corner, we have really started to do some spiral review in each class! We encourage each student to read at home and practice multiplication, division, addition, and subtraction facts. Also, 4th grade students cannot wait to share their final product of their invention project!

5th Grade

The students have been working on space project based learning in reading classes. Math is a continuation of multiplying and dividing fractions in real-world problems. In science, we are studying the conservation of matter.

6th Grade

We are in the final stages in preparation for our field trip to JA Biztown. Checkbooks will be balanced and prepared! Math class has us in the thick of algebra and solving equations, while Reading classes are trying their hands at poetry. We appreciate all the sales from Smencils!
