

Message From The Principal

Welcome to the 2024-2025 school year! Hopefully everyone has had a great summer break; a time to refresh and renew yourself and get ready to make this school year the best it can possibly be. I am always excited for the chance to start off a new school year as there are new students and staff members who make the time here so enjoyable and fulfilling. I believe we have an amazing group of individuals who work at LaVille Jr-Sr High School who do an awesome job at making this school one of the top notch schools in the state. Our teachers, aides, office staff, counselors, lunch staff, custodians, and administrators are quality people who care about students and want to invest positively into their lives. I am truly blessed to work at a school where the entire staff is committed to serving the students on a daily basis.

This has been one of the first years that I can remember where there really were not many staff members to replace. We only had one person retire and up until this point we have not had anyone move on to another corporation. I am very excited to be working with the same staff we had last year. I know our entire staff will be rejuvenated from the summer months and will be ready to have a fabulous school year.

I am very appreciative of the support we continually receive from parents and community members. I will be starting my 17th year at LaVille this school year and the support I have felt over the years from so many people has been heartwarming to me. I have truly been blessed to work with some of the best staff members, to daily be around such amazing students, and to get to know parents and community members who are so supportive of what we try to do here at the school. As a school we will continue to commit to doing the best possible job to ensure that our students are equipped to be productive members of our society. We want every student that attends LaVille Jr-Sr High School to experience success. We will work every day to make sure this becomes a reality for all students.

Thanks for your continued support!

Mr. Michael Edison
