

# UNION-NORTH UNITED SCHOOL CORPORATION DYSLEXIA SCREENING PROCESS

Parents are notified of universal screening process for students kindergarten through 2nd grade.

Administer universal screener (mCLASS) to all students K-2nd grades. Data from mCLASS determines "at risk" students.

Notify parents of screener results and continue general education programming.

**Universal At Risk**

**Not at Risk. No further screening required.**

Classroom intervention begins immediately. Progress will be monitored.

Provide parent permission form to complete Level 1 screener, with the option to opt out of this screener.

Notify parents of screener results and resume interventions and general education programming.

**Level 1 At Risk**

**Not at Risk. No further screening. Continues classroom interventions and progress monitoring.**

**Parent opted student out. No further screening. Continue with classroom interventions and progress monitoring.**

Intensify intervention and continue progress monitoring.

If little to no growth, dyslexia team will use data to determine next steps, which may include Level 2 screeners and/or special education evaluation.
